

One Programme

Under the 4 UNDAF pillars on Governance, HIV/AIDS, Human Capital and Economic Development, focusing on a sub-set of selected, strategic UNDAF outputs, **11 joint programmes** have been identified. Together the 11 JPs constitute the One Programme.

As a result of the strategic inclusiveness approach selected by the UNCT in Mozambique, the One Programme focuses on the contribution of all UN agencies, specialised and non-specialised, resident and non-resident in areas of UN comparative advantage to achieve greater impact in the context of Mozambique development priorities and of the new aid environment.
