

# One Budgetary & One Fund

The One Budgetary Framework provides a consolidated picture of the UN resource requirements for the UNDAF 2007-2009 in Mozambique. The Framework shows the UN's aggregate planned resources and funding gaps identifying each UN agency's planned input linked to expected outcomes in the UNDAF 2007-2009.

The **One UN Fund** is the mechanism through which donors finance 1) the un-funded portion of the 11 joint programmes in the One UN Programme, 2) the Change Management Budget for the One UN Initiative including the Communicating as One initiative. The One UN Fund streamlines the management of resources made available to the UN in Mozambique.
